

ENVIRONMENT

Commitment Statement

FortisAlberta is committed to providing electrical service to its customers in an environmentally responsible manner. In fulfilling this commitment, the Company will incorporate environmental issues into decision-making to meet present needs without compromising future generations.

- » The Company is committed to meeting the requirements of all applicable legislation, regulations, and accepted standards of environmental protection.
- » The Company is committed to managing its activities in a way that is consistent with industry practice, including Electricity Canada's Sustainable Electricity program, and in ways that support the environmental policies of the federal, provincial and municipal governments.
- » Monitoring and audits of our operations and Environmental Management System will be conducted regularly.
- » The Company is committed to the prevention of pollution and the conservation of natural resources.
- » The Company will annually establish and review environmental objectives and targets, and develop related programs to address our greatest potential environmental risks, including fires, spills, waste management, and wildlife/natural resources.
- » The Company is committed to continual improvement in environmental performance.
- » The Company will make its commitments and knowledge on environmental issues available to customers, employees and the general public.
- » The Company is committed to supporting and participating in community-based projects that focus on the environment.
- » The environment is the responsibility of all employees and those working on behalf of the Company. The Company will provide training for employees and their counterparts so they can fulfill their duties in an environmentally responsible manner.
